

Race Equity Pledge

I acknowledge that racism is evil and has been part of our country from its birth. I also acknowledge that racism props up White Privilege and White Supremacist ideologies. The perpetuation of racism, White Privilege, and White Supremacist ideologies are detrimental to the health of my constituents and the communities that I serve.

Therefore, I pledge to personally be actively anti-racist. I pledge to use my office to champion Race Equity, to develop and support legislation and policies that dismantle White Privilege, to build support among my colleagues to dismantle White Privilege, and to publicly advocate for all individuals, institutions and businesses to be actively anti-racist and to dismantle White Privilege.

I also pledge to disavow any affiliation with White Supremacist individuals and groups and not to accept financial support from the same.
